Mr. Smith stated also that he had sent a letter of thanks to all the firms that had bid on the on-site testing.

Discussion with Construction Manager

Mr. Luzzi reported that a great deal of activity was taking place on the school grounds. A major cut has been made in the terrain at the rear of the building in preparation for the access road that will be constructed there. So far, all is going according to plan.

It was stated that some PCBs had been found above the window areas where the walls tied into the ceiling area. These will be taken care of during the remedial plans for PCBs clean-up.

Mr. Smith reported that some of the soil clean-up involving the PCBs could take place on Saturdays instead of waiting until the holiday recess week in December. He also reported that the soil removal would only occur in the areas below the school windows.

Mr. Calvert also reported that the playground equipment had been disassembled and transported to French Memorial Park. The Town crew will reassemble it at this site.

Mr. Smith requested that monthly reports be submitted to the Committee membership from here on in as the building project is well underway.
Discussion with Architect

Mr. Stein reported that architectural meetings have been started now that the project is well on its way. Most of these meetings will take place at the Firm’s main office until trailer office space is available on site.

Review of Project Budget

A budget report sheet was distributed to the Committee membership showing the transfers made at the September 29, 2010 meeting session.

Mrs. Danka inquired if the interest income report figures were a result of the first year bonding. She was told that it was.

Other Business

There was a change made in the regularly scheduled meeting dates for November and December. The Committee will meet on the following days:

a.) November 9, 2010 and TUESDAY, November 23, 2010
b.) December 14, 2010

The December 22, 2010 meeting has been cancelled.

Discussion for the playground reinstallation at French Field had already been discussed. Mrs. Danka stated that she had been informed that during the disassembly of this equipment, explicit directions were written regarding its reinstallation. She felt that anyone from the Town crew should have little problem in reassembling the equipment as it was at the Chatfield School playground area.
Under any other business, it was mentioned that a Committee member should serve as an overseer of the budget expenditures and report back to the Committee membership on a periodic basis. John Conroy served in this capacity on the High School Building Committee and it proved to be most worthwhile for the Committee membership.

Mr. Baker inquired if a copy of what Mr. Conroy's work was like in this capacity and how it was set up using the Excel computer program could be made available. If it were fairly simple, he may attempt serving as the Committee representative in this budget reporting system.

Committee members were reminded that a special meeting will be held on Wednesday evening, November 3, 2010 at 7:00 p.m. at the Bungay School. Action will be taken at this session on the bids received for abatement monitoring.

Mr. Smith noted that the bids opened at this meeting session were very favorable as all four bids received were substantially lower than the $170,000 that had been budgeted in this line item.

Hearing nothing further:

MOTION: (Mrs. Danka, sec., Mr. Baker) to adjourn the meeting.

So moved.

Affirmative: Mrs. Danka, Mr. Baker, Mr. Coppola, Mr. Catlin, Mr. Mirabelle, Mr. Putorti, Mr. Marcinek, Mrs. Jachimowski, Ms. Gesek, Mr. Smith, Mr. Kubik
