Discussion with Construction Manager

Mr. Calvert reported that after receiving approval by the Board of Selectmen, immediate action was taken to procure a building permit for the project. The removal of trees surrounding the parking area took place on October 11, 2010 after all was in place.

Mr. Calvert inquired as to the status of the existing playground equipment as it has to be removed to create a means of egress from the rear of the building.

Mr. Smith reported that he had been informed that the cost of dismantling the current playground equipment and reinstalling it at French Field would be $22,000. He was informed that the Chatfield PTA would contribute to these costs and the town would pick up the remainder of them.

Much discussion ensued as to whether PTA funds should be used for this purpose and whether or not the town would have this kind of funding in the current budget for these costs. It was finally determined that the contractor would dismantle the playground equipment and place it in storage under the direction of the Parks and Recreation Commission.
