Discussion of Commissioning Agent Selection – Take Action
Mr. Smith related to the Committee membership that calls were made to representatives of Verizon Engineering for clarification of what was perceived as an error in cost estimates by the Committee membership. He was informed that no error was made and the cost seemed low as their personnel would be able to use other resources.

Mr. Smith stated that he contacted the chairman of a building committee in Fairfield inquiring as to the work of Verizon Engineering personnel on a current building project in the Fairfield School System. He was informed that, to date, Verizon Engineering personnel have served as a silent consultant on the building project which is well on its way to completion.

Mr. Smith also made calls to the Strategic Building Solutions Firm and relayed information from this firm’s personnel.

At this point, it was suggested that before any further decision is made on the hiring of the Commissioning Agent that a personal visitation be made to the offices of the Strategic Solutions Firm.

Mr. Smith requested a motion on this matter.

Mr. Calvert reminded the Committee members that the number had not been valued engineered. He distributed copies of a recommended valued engineering list for the Committee’s consideration as a way of lowering costs. There were eleven items on the recommended list. These included:

1.) Delete and/or reduce canopy at gym
2.) Delete roof overhang at south addition.
3.) Delete courtyard wall.
4.) Omit snow melt system.

After much discussion, the following motion was made:

MOTION: (Mr. Catlin, sec., Mr. Marcinek) to eliminate items 1, 2, 8, and 11 from the valued engineering list.

Discussion with Architect

Dean Petrucelli reported that in the last three weeks, personnel working on the design project have shifted gears. The firm had received approval on all facets of the project except for the
