ITEM # 3 - Public Comment.
Richard Rossik, 34 Roberts Street: Who issued a special permit to Hot Tamales for Cinco De Mayo Celebration until 1am outside? Kurt: I don’t know, but will check into it.

Bob Koskelowski, Pearl Street: The Budget that is going to vote on Thursday still has the salary for the Public Works Director in the document. The document shows the money being taken from the snow plowing account. The employee being let go has a right to a hearing. Feels that the Board of Finance is dictating policy. Only $50,000 left for snow removal. Town is obligated to remove the snow. The Town will still have to pay for unemployment for the position. Why pick the public works director? Union person running the department. Serious concerns about supporting the decision to let go of the Public Works Director. Also has a concern about creating a communications department with salaries.

ITEM # 7 - Discussion of High School Chlorine Spill Report.

Yashu Putorti, Chairman of the Board of Education: States that the events of February 24, 2012 were like a Perfect Storm. There was a snow storm of approximately 3 or 4 inches of accumulation. A delay was called and school started late. Company that delivered the chemicals had a new driver. The custodians were attending to other duties and the office staff allowed the delivery. The top of the barrels had gotten wet, which caused a reaction. The custodian noticed and took immediate action. All protocols and processes have been rectified since the incident. The office must inquire all deliveries. Ask about custodian acceptance. Hazmat training and new system in the pool area.

Rick Belden: Description of action plan and material data sheets. Inspection from Fire Marshal. Remediating the old boiler room area and make it an automatic dispensing system for the pool. Stored in safe area. Have a contract with Brock. Will be tested on a monthly basis.
Annmarie: last time when the oil spill was done we were told this was going to get done.
Rick: Had to take out of the budget. This time it has already started and is in this year's budget and next budget. Having the pool emptied this summer and handicapped access added.
Annmarie: Please notify the board when project is completed.
Karen: Why 3 months to get this report? Al: same question.
Annmarie: DEEP takes a long time to get reports.
Karen: Sandy Osheski was not in building when the delivery came in.
Rick: Custodians are not in the buildings at all times. This day late opening and he was delivering mail when the delivery came in.
Annmarie: Wants all deliveries to go to a specific area.
