2010-2013 Teachers Contract (Arbitrated Award)
Executive Summary

1. In contract year 2010-11, there will be a General Wage Increase (GWI) of 0% and no step movement for teachers on the salary schedule (Board proposal). In contract year 2011-12, there will be a GWI of .99% and all teachers will move one step on the salary schedule (Union proposal). In contract year 2012-13, there will be a GWI of 1.0% and all teachers will move one step on the salary schedule (Board proposal). The potential salary pool costs are $0 for 2010-11, $514,650 for 2011-12 and $504,055 for 2012-13. The average GWI increase over the three year contract period is .66%.

2. In contract year 2010-11, there will be an increase in the prescription co-pays from $10 generic / $15 listed brand / $25 non-listed brand to $10 generic / $25 listed brand / $40 non-listed brand (Board proposal pre-arbitration).

3. In contract year 2012-2013 the teacher health insurance copay will increase by 1.0% (Board proposal pre-arbitration). Century Preferred will increase from 15.0% to 16.0%, BlueCare POS will increase from 10% to 11% and BlueCare POE will increase from 8% to 9%.

4. Any teacher hired after July 1, 2010 will not be eligible for the existing post retirement health insurance assistance provided by the Board of Education (Board proposal pre-arbitration). This will directly affect our future GASB 45 liability calculations in a positive manner. See contract Article VI, Section 6 for specific language regarding this benefit.

5. Article V, Section D has been modified, per the Board proposal, to specifically provide tuition reimbursement only for graduate level schooling that counts toward movement on the salary lanes.

6. Article XII, Section G.7 Stipend for College Cooperative courses has been modified, per the Board proposal, to provide the opportunity for Seymour High School students to earn community college credits for certain High School courses without requiring any stipend payments to teachers.

7. Appendix A, Definitions of Master Degree and MA+30 / Sixth Year. The language has been modified, per the union proposal, to reflect three different items: 1. new definition for MA+30; 2. addition of superintendent’s approval as a requirement; and 3. superintendent’s approval shall not be unreasonably withheld.

8. Appendix “E” Stipend positions for Sports and Non-Sports activities. In contract year 2010-11, there will be a GWI of 0% and no step movement for teachers on the salary schedule (Board proposal). In contract year 2011-12, there will be a 3% GWI and all teachers will move one step on the salary schedule (union proposal). In contract year 2012-13, there will be a 1.0% GWI and all teachers will move one step on the salary schedule (Board proposal).

The above summary reflects the significant arbitrated issues that resulted in changes to the existing contract language. There were a total of forty five (45) issues in arbitration, with the arbitrators generally reflecting individual decisions that maintained the current language.

In addition, it should be noted that the Appendix “L” items, which include stipends for longevity, travel, department heads, tutoring, summer school, etc. were not part of the arbitration process and no increases will be made in these items during the three year contract term.

INSURANCE

1) Sherman Insurance Service-Phone # 203-231-4317-Address 13 Riverbend Drive Oxford. They negotiates are insurance rates with Blue Cross and others. They have saved the Town money by getting lower percentage increases than Blue Cross asked for. They also work with the Board of Education. Must begin negotiation now.

TOWN ENGINEER

1) Nafis and Young have worked for the Town with the last three Administrations. They have engineers who specialize in different fields. They do no private work for developers that have projects in Seymour. I did a cost if the Town hired an Engineer instead of a firm the cost would be close to three times more. A firm $52,000 vs. our own Town Engineer Approx. $150,000 which include benefits. Plus if Engineer hired by Town has any projects that he works for the developer cannot act on for Town and Town would have to hire outside. My recommendation would be to continue to have firm do our Engineer work at a cost savings. Only money budgeted is the cost of a firm.

PROPOSAL TO REDUCE STATE INCOME BY 3%

1) Legislators if agree to reduce State income to Municipalities at special session the Town would loose over $300,000 that was promised to us. I recommend you begin immediately reviewing the Towns 2009/10 Budget and recommend reduced spending in this year budget. If approved it could also affect the 2010/11 budget with reduced income.
