ITEM # 1 - Discuss financing for Chatfield LoPresti School Project.
The First Selectman met with the Town’s financial advisors with the Finance Director and Assistant Finance Director to discuss options for the Town to fund the Chatfield LoPresti project. The First Selectman presents a list of the Town’s debt for the Board members to review. Ted May, Financial Advisor stated to the First Selectman that as far as Short-term notes: The Town may finance the project using notes for up to eight years. While notes carry an initial lower interest cost the Town would be required to make an annual pay down (equivalent to 1/20 of the project cost) after the second year and before the third year of borrowing. Funds can be borrowed for up to one year at a time and current rates are in the 2% range. Bonding: Would allow the Town the opportunity to lock in the current low fixed rates for a period of up to 20 years. The Town would have the opportunity to skip the first 2 principal payments softening the budget impact for 2011 and 2012 fiscal years. The Town would be required to shorten
the bond principal maturities to no more than 18 years (instead of 20); current rates are in the 4 - 4.25% range.

John Conroy: States that he supports this project and it should not be delayed. He states that even though the interest rates are higher, the construction rates are down and they will offset each other.

Robert J. Koskelowski: States that the State reimbursement rate is still at 61% from what he has been told.

John Conroy: Would like to see a set of cash-flows to see how the Committee has the financials worked out.

Don Smith, Co-Chairman of the Chatfield LoPresti Building Committee: States that they will not have the cash-flow chart until they decide on a design company.

ITEM # 2 - Recommendation from Chatfield LoPresti Building Committee. (Take possible action)

The Board members receive a list of the top four candidates for the architect contract for the Chatfield LoPresti School Project. The First Selectman has several concerns regarding the whole bid process that the Committee went through for the architect contract. He questions why the Committee chose one of the higher qualified bidders when they stated that all four candidates were qualified, especially since the highest bidder was approximately $500,000 more than the lowest qualified bidder. He also questions the integrity of the bids since after they were opened the highest bidder called some of the committee members and also sent a letter offering to lower their bid by 15%.

George Temple, Town Counsel: States that he doesn't feel that any law had been violated by Statute, but does feel that the conduct lacks fundamental fairness and integrity. He also feels that all bidders should have the opportunity to lower their bids.

Several Committee members speak about their personal opinions on the bidding process and the firm that was chosen. The Committee vote was not unanimous and a lot of the members were not present at that meeting. The Firm that was chosen was the firm that has done all of the work thus far on this project, but were paid for all of this work.

The First Selectman requests that the Committee members meet again and put in writing to the Board of Selectmen why they are not choosing the lowest qualified bidder and why they chose the firm that they did. He would like this brought to the Board of Selectmen for their next meeting on 4/21/09. Several of the Board of Selectmen members agree and would also like to see justification on the firm that was chosen.
Motion to send the Architectural Firm bids back to the Chatfield LoPresti School Building Committee for review and written recommendations on the firm that was chosen and reasons why the other bidders were not chosen to the Board of Selectmen at their next meeting on 4/21/09.

Motion: John Conroy Second: Annmarie Drugonis

Motion to set a special joint meeting with the Board of Selectmen and the Housing Authority to discuss the possibility of joining the City of Bridgeport’s Section 8 Program and utilize the funds to build at the Randall Field site.
Motion: Annmarie Drugonis   Second: John Conroy

Discussion: The First Selectman explains to the Board members that he met with David Keyser, Director of the Seymour Housing Authority concerning the contract that the Town of Seymour entered into in 1982 with the City of Ansonia Section 8, that was never signed, to allow Landlords in the Town of Seymour to utilize the Section 8 program through the State. Mr. Keyser has requested that the Town of Seymour enter into a similar Section 8 program with the City of Bridgeport. He feels that this would be beneficial to the Town of Seymour because the Housing Authority would receive money from this program and they would like to use those funds to build additional senior or disabled housing on the Randall Field site, which they have been unable to appropriate any grant money to build.
