ITEM # 2 – Request for Funding for “Reverse 911” by Captain Beres and Tom Eighmie.
Tom Eighmie, Emergency Management Director discussed how the Fire Dept, Police Dept Public Works, First Selectman, Public Health and the Board of Ed how table top exercises were performed. With the scenarios performed showed the need for the Reverse 911 notification system. They have applied for two Federal Grants and to the Katharine Matthies Foundation to no avail.
Capt Paul Beres told the Board the Reverse 911 notification system would allow up to 8 phone lines and would be able to pump out 960 30-second messages an hour. Currently Trumbull, East Haven, and Shelton are all currently using the Reverse 911 system. Should Seymour purchase the system they would be able to enter into an agreement with Shelton and use their 8 lines and give us 16 phone lines to increase notification as well as doing the same for Shelton? The cost for the system is $30,000 for initial install and an annual fee of around $4,000. With the Reverse 911 system it would be able to notify geographical groups, neighborhoods and it can be used by municipalities for other types of notifications. There would be calling sites at the Police Station, Fire Houses, Town Hall and Emergency Management. Governor Rell did announce she was planning on putting funds aside for Reverse 911 for every community in the State but it is not known if and when this will happen. Capt Paul Beres and Emergency Management Director, Tom Eighmie is asking the Board to submit this to be included into next years budget. In the meantime they will be applying for other grants for this project.
