Motion made to adjourn at 8:32 by Commissioner Andrews, 2nd by Commissioner Motasky.
Approved 5-0.

Respectfully Submitted,

Kathleen Pelletier
Recording Secretary
Below is a brief summary of the major work activities that the Seymour Fire Marshal’s Office conducted during the month of July 2014:

Building Inspections – The Office conducted 2 inspections on new construction, 18 inspections on existing buildings and 10 re-inspections. Please keep in mind that after each inspection, some type of a report needs to be created.

Blasting Permit – 0  Blasting Site Inspections – 0  Blasting Complaints – 0  Other Complaints – 3
Meetings - 7

Detail Code Reviews – 0  Detail follow-up activities – 2  Hydrant inspections with follow up – 0

Letters sent out to Balance Rock tenants involving 20 pound propane tanks on balconies – 0

Burning Permits – 1  Scheduling re-inspection activities has been increased

Major Activities

39 New Haven Road, Seybridge Plaza – There has been no change since last month. The Office is monitoring the construction progress for a two story small addition behind the Fitness Center.

Outside Training Attended – FM Wetowitz attended a one day seminar on fire pumps for sprinkler and standpipe systems.

Training activities conducted – DFM Willis conducted a fire station tour at Citizens Engine Company.

600 Derby Avenue, Haynes Quarry – Blasting activity has slowed down due to blasting activity in Oxford. They are carting the material to this plant. I am monitoring the activities.

165 Pearl Street apartment complex, a single apartment – We are waiting for the work to be completed before a final inspection for a C.O. This project is temporarily on hold.

26 - 28 Bank Street and 54 Wakely Street (continued) – We are still waiting for the alternative plans and the re-working of the violations and resubmitting modified plans to our Office.

5-7 Nichols Street – This project has been completed. After spending considerable time and follow up activities, including working with the State’s Attorney Office, the outside stairs has been installed, inspected and accepted. The third floor needed a second exit egress. One has finally been provided.
Franklin Street, Haynes Building, Haynes Landscaping Store – There has been no recent activity for this building complex. However, the landscaping retail operation continues to operate.

79, 89 and 101 Bank Street, Seymour Lumber Company – The anticipated demolition of these buildings is on hold. A potential demolition date is unknown to this writer.

45 Broad St. Congregational Church – We are still waiting for an anticipated plan in order to address the front stairway non-fire rated walls and doors. An elevator is being planned for future installation.

165 Main St., Strand Theatre – Work is still progressing to address issues.

172 North Street, Nail Saloon – Construction work has begun on this fit up. We are monitoring the progress.

360 Roosevelt Drive, multiple single family dwellings and a vacant Room and Lodging house – After investigation and review, the resident’s concerns are not related to a fire marshal’s authority. We assisted them as far as we could and conducted the appropriate referrals.

770 Derby Avenue – The office conducted a plan review for a building shell. It is approximately 6,000 square feet in size. Potential tenants have not been selected yet. This is behind the Veneer building.

28 Smith Street, Smithfield Gardens Assisted Living – A yearly review was conducted of their fire evacuation plan. No additional suggestions were identified.

25, 33 and 41 Deforest Street apartment buildings – We had to address, both written and verbal complaints, from a tenant regarding shopping carts being left in hallways and near exit doors in the buildings. His concerns were it blocking handicap and non-handicap egress and impeding first responders. This resulted in multiple discussions with the owners. I also created a notice to all residents regarding the situation. I was informed it got posted on all apartment doors.

Heritage Drive – The office investigated and did some follow up activity regarding a fire department concern about a potential hoarding situation. The fire department was dispatched to the address to assist EMS in removing two patients from the house. Some progress is being made on a long term plan with potential assistance from relatives.

Significant Fire Investigations: 85 Grand Street – This appears to have been an accidental fire on the outside of the house. Potential cause could have been lighting. Light to moderate fire damage.

31 Silvermine Road, Dekarz Engineering – This appears to have been an accidental fire. A lawn sprinkler panel and vacuum cleaner were consumed. Potential cause could have been lighting. Fire damage was light but smoke damage was substantial.
