         Selectmen.
         Motion Carried 5-0.

3. Extension of Jacko Drive, Acceptance.

Michael Horbal, 52 Main Street was present representing Stanley Jachimowski. He
stated that Mr. Jachimowski received P&Z approval in December 2014 for a
subdivision and 30 foot extension of Jacko Drive. He stated that since that time Mr.
Jachimowski has completed construction of the roads, sewers and all other elements
required and turned over the easements for roads and sanitary sewers. Mr. Horbal
stated that they are asking that a letter be sent to the Board of Selectmen to accept the road. He stated that he has a letter from Town Engineer Brian Nesteriak and also from Jim Galligan, WPCA engineer who stated that the sewers were inspected and are fine. The monuments have been installed and there is no other work that needs to be done. Mr. Horbal stated that there was no bond required for this subdivision and therefore no bond release needed. He felt that there should just be some formal notice that the subdivision and road are complete.

Mr. Nesteriak stated that he spoke with the engineer and town attorney and this request should go directly to the Board of Selectmen. Mr. Horbal stated that normally when a subdivision is approved a bond is set and Planning and Zoning either reduces or releases it when the work is done. In this case there is no bond but he is trying to follow the normal procedures for acceptance. Mr. Nesteriak stated that there were no inspections done during construction of the road and he was never notified that it was being constructed. He stated that he looked at it and it looks fine but he does not know how it was built and what materials were used. Mr. Horbal stated that at the time it was constructed Jim Galligan was the town engineer and now he only does WPCA work. He stated that Mr. Galligan was notified when the sewer line was extended. Stanley Jachimowski stated that he put in new process when it was extended.
