I. CALL TO ORDER
   A. Mr. Belden called the meeting to order with the Pledge of Allegiance 7:10 p.m.

II. ELECTION OF CHAIRPERSON
    Mr. Garofolo nominated Mr. Kubik to be the Chairperson. All were in favor and Mr. Kubik was appointed chairperson of the Facilities Committee.

III. PUBLIC COMMENT
    None

IV. DISCUSSION AND POSSIBLE ACTION
    A. Health Status
       1. Bungay School
          a. Oil Spill-Root Cause and Corrective Action
             Mr. Falzone reviewed recent minor oil spill. The oil spill may have been caused by a defective vent pipe, which will be addressed when the weather warms up enough to inspect the oil tank and pipe. The contracted oil company has paid all expenses to remediate the effects of the spill and subsequent deliveries have been monitored by a Seymour School employee. Mr. Falzone indicated that the oil tank would also be inspected and sludge removal would be done during the summer. Bungay School is the oldest building in district at this time and is need of major repairs. Major areas of concern are floor tiles, roof leaks, paving issues and heating issues including the need for a new boiler. Mr. Belden indicated that we are going to need to address these issues. The district will either have to start putting significant operating expense funds into addressing these issues or we can go to the town Permanent Building Committee as well as the First Selectman to start talks on a "renovate as new" capital building project. Mr. Kubik says he will broach the issue with the town. He would also like to do a walkthrough to see for himself the areas of concern.

       2. Chatfield-LoPresti School
          The only area of concern with this school is the Snow Melt system, which is now in the hands of the town attorney.

       3. Seymour Middle School
          The floor tiles in this school are reaching end of life and are starting to need replacement. There are also several roof leaks and the roof is reaching end of life.
4. Seymour High School
   a. Boilers
      The two boilers had eight sections replaced at a cost of $35,000 during the summer of 2017. The water returning to the boilers was too cold resulting in cracking. It was decided to call in an outside company to see if there are any solutions to this issue (i.e. insulating pipes, mixing valve, and a system to monitor the return water temperature.)
   b. Pool
      The pool has a dedicated boiler which runs 24/7 and is not energy efficient due to the length of the pipe run. Mr. Falzone recommended the possibility of adding an auxiliary pump.
   c. OCR Status Update
      Mr. Belden distributed a copy of our Voluntary Corrective Action Plan with the areas that we are continuing to address. Mr. Belden indicated we are chipping away at the open issues and Dr. Wood (State Consultant) is satisfied with the work that is being done. An annual report is prepared for the State OCR department with the status of the remediation efforts. Mr. Belden noted that there is significant work to be done in the locker room/gym areas if a student/staff member requires ADA accessibility.

B. Planned/Required Maintenance and Updates
   1. Bungay School
      Parking lot striping, painting exterior woodwork, replace classroom A/C units, repair sidewalk, paving in drop off area
   2. Chatfield-LoPresti School
      Parking lot striping, recoat gym floor
   3. Seymour Middle School
      Parking lot striping, locker repair, recoat gym floor, paving in drop off area, bathroom partition replacement, install new flooring
   4. Seymour High School
      Parking lot striping, locker repairs, recoat gym floor, replace state curtain, OCR Repairs, replace flooring
      The items above are the areas proposed to be repaired and maintained. These items were identified in the supporting detail for the 2018-19 budget.

C. Needed Equipment and Supplies
   The following equipment is budgeted for this 2018-19: 2 riding floor machines (one at CLS and one at SMS). Mr. Belden indicated that funding has been maintained in our annual operating budgets to replace custodial equipment in a planned manner.

D. Review of 2017 Fire Marshall School Inspections
   Mr. Falzone provided a copy of the Fire Marshall's inspection report for 2017 (attached), along with the work performed to address the cited items. There are no outstanding issues.

V. REPORTS
   A. Chairman's Report: None
   B. Superintendent's Report: Mr. Belden provided a copy of the Asbestos Re-Inspection report filed with the State of Connecticut. This inspection is required every three years and there were no issues cited that require any remediation in the report.
VI. PUBLIC COMMENT
None

VII. ADJOURNMENT
MOTION: (Mr. Garofolo /sec. Mr. Kubik) to adjourn the meeting at 8:20p.m.

AFFIRMATIVE: Mr. Garofolo, Mr. Kubik

SO VOTED

Submitted by:
Pat Boyle
LOCAL EDUCATION AGENCY (LEA) MANDATORY REPORT DOCUMENTATION OF THREE-YEAR REINSPECTION FOR ASBESTOS-CONTAINING MATERIALS

INSTRUCTIONS: Form must be typed or prepared electronically. Digital signatures are acceptable. The LEA may submit the form electronically to DPH.Asbestos@ct.gov or mail to the Department of Public Health at 410 Capitol Avenue, MS #51 AIR, PO Box 340308, Hartford, CT 06134-0308

Sections 1-2: Management Planner (MP) shall complete and submit form electronically to the LEA Designated Person (DP). If MP recommends a response action, other than operations and maintenance (O&M) and/or Preventive Measures, submit Attachment A, detailing the specific recommendations for each school.

Section 3: Local education agency (LEA) shall complete and submit to the DPH within thirty-(30) days of the date of the reinspection. The DP must list the course name, dates and hours of training received to carry out the LEA's duties. If the DP satisfied training requirement by reading the DP's Self Study Guide, specify the dates and number of hours it was read. Upon submittal to the DPH, the DP must place a copy of the form and Attachment A, if applicable, in the asbestos management plan for each school, and send a completed copy of the form to the MP.

CONNECTICUT STATE FIRE SAFETY CODE
ABATEMENT ORDER OF FIRE/LIFE SAFETY HAZARDS

Dear Mr. Falzone,

On 8/14/2017, at approximately 9:45 am hours, an inspection was conducted of the premises located at 11 Mountain Road, Seymour, Connecticut for the purpose of compliance with Connecticut Fire Safety Code and the applicable referenced applicable standards, adopted pursuant to the Connecticut General Statutes §29-292 and §29-293. The Code and said standards are available for your inspection at this office.

The violation of the code found on the date of inspection are listed on the attached inspection report.

You are hereby ordered to take the proper corrective action to remove or remedy all the listed violations within thirty (30) days from the day that this notice is received, unless otherwise noted on the attached inspection report.

If you believe that compliance with the code will impose an unreasonable hardship, and that alternative methods of achieving an equivalent level of safety could be attained, you may request, in writing, a modification of the requirements of said Code as outlined in the Connecticut General Statutes §29-296. If you believe compliance will take more than that specified, you may request an extension of time prior to the expiration of the thirty (30) day period, unless otherwise noted on the attached inspection report. Sample forms for application for modification and extension of time for compliance are available from this office. In addition you have the right to appeal this order pursuant to Connecticut General Statutes §29-306 for a period of not more than thirty (30) days from receipt.

Plans/specifications for work to be done shall be submitted to this office prior to the commencement of any construction. This review of all plans/specifications would avoid unnecessary expense that could result from non-complying changes. Please note that the correction of certain violations may require proper permits and approval from the building official and other local agencies prior to any construction.

This is the only order you will receive. This office will conduct a re-inspection of the premises to determine compliance with this order after the expiration of the thirty-day (30) or the time period noted on the inspection report. Your failure to comply with this order within the period specified as determined by said re-inspection constitutes failure to comply with the Connecticut State Fire Safety Code which may subject you to criminal prosecution as prescribed by Connecticut General Statutes §29-306 with penalties of a fine not less than two hundred dollars ($200.) nor more than one thousand dollars ($1000.00) or imprisonment of up to nine months or both, as prescribed in Connecticut General Statutes §29-295. Non-compliance may result in a civil proceeding against you as authorized in Connecticut General Statutes §29-306.

This Office is looking forward to working with you in the interest of fire and life safety for the community and awaits your timely response to this matter.

Sincerely,

[Signature]

Fire Marshal Paul Wetowitz

CONNECTICUT STATE FIRE SAFETY CODE
ABATEMENT ORDER OF FIRE/LIFE SAFETY HAZARDS

Dear Mr. Falzone,

On 8/16/2017, at approximately 0900 hours, an inspection was conducted of the premises located at 2 Botsford Road, Seymour, Connecticut for the purpose of compliance with Connecticut Fire Safety Code and the applicable referenced applicable standards, adopted pursuant to the Connecticut General Statutes §29-292 and §29-293. The Code and said standards are available for your inspection at this office.

The violation of the code found on the date of inspection are listed on the attached inspection report.

You are hereby ordered to take the proper corrective action to remove or remedy all the listed violations within thirty (30) days from the day that this notice is received, unless otherwise noted on the attached inspection report.

If you believe that compliance with the code will impose an unreasonable hardship, and that alternative methods of achieving an equivalent level of safety could be attained, you may request, in writing, a modification of the requirements of said Code as outlined in the Connecticut General Statutes § 29-296. If you believe compliance will take more than that specified, you may request an extension of time prior to the expiration of the thirty (30) day period, unless otherwise noted on the attached inspection report. Sample forms for application for modification and extension of time for compliance are available from this office. In addition you have the right to appeal this order pursuant to Connecticut General Statues §29-306 for a period of not more than thirty (30) days from receipt.

Plans/specifications for work to be done shall be submitted to this office prior to the commencement of any construction. This review of all plans/specifications would avoid unnecessary expense that could result from non-complying changes. Please note that the correction of certain violations may require proper permits and approval from the building official and other local agencies prior to any construction.

This is the only order you will receive. This office will conduct a re-inspection of the premises to determine compliance with this order after the expiration of the thirty-day (30) or the time period noted on the inspection report. Your failure to comply with this order within the period specified as determined by said re-inspection constitutes your failure to comply with the Connecticut State Fire Safety Code which may subject you to criminal prosecution as prescribed by Connecticut General Statutes §29-306 with penalties of a fine not less than two hundred dollars ($200.) nor more than one thousand dollars ($1000.00) or imprisonment of up to six months or both, as prescribed in Connecticut General Statues §29-295. Non-compliance may result in a civil proceeding against you as authorized in Connecticut General Statues § 29-306

This Office is looking forward to working with you in the interest of fire and life safety for the community and awaits your timely response to this matter.

Sincerely,

Deputy Fire Marshal Timothy P. Willis

Office Of The Fire Marshal
Town of Seymour
1 First Street
Seymour, Connecticut 06483

Certified Mail Return Receipt #: Monday, August 14, 2017

Bungay Elementary School
Joseph Falzone
211 Mountain Road
Seymour, CT 06483

CONNECTICUT STATE FIRE SAFETY CODE
ABATEMENT ORDER OF FIRE/LIFE SAFETY HAZARDS

Dear Mr. Falzone,

On 8/14/2017, at approximately 1030 hours, an inspection was conducted of the premises located at
211 Mountain Road, Seymour, Connecticut for the purpose of compliance with Connecticut Fire Safety Code and the applicable
referenced applicable standards, adopted pursuant to the Connecticut General Statutes §29-292 and §29-293. The Code and said
standards are available for your inspection at this office.

The violation of the code found on the date of inspection are listed on the attached inspection report.

You are hereby ordered to take the proper corrective action to remove or remedy all the listed violations within thirty (30) days
from the day that this notice is received, unless otherwise noted on the attached inspection report.

If you believe that compliance with the code will impose an unreasonable hardship, and that alternative methods of achieving an
equivalent level of safety could be attained, you may request, in writing, a modification of the requirements of said Code as outlined
in the Connecticut General Statutes § 29-296. If you believe compliance will take more than that specified, you may request an
extension of time prior to the expiration of the thirty (30) day period, unless otherwise noted on the attached inspection report. Sample
forms for application for modification and extension of time for compliance are available from this office. In addition you have the
right to appeal this order pursuant to Connecticut General Statues §29-306 for a period of not more than thirty (30) days from receipt.

Plans/specifications for work to be done shall be submitted to this office prior to the commencement of any construction. This review
of all plans/specifications would avoid unnecessary expense that could result from non-complying changes. Please note that the
correction of certain violations may require proper permits and approval from the building official and other local agencies prior to
any construction.

This is the only order you will receive. This office will conduct a re-inspection of the premises to determine compliance with this
order after the expiration of the thirty-day (30) or the time period noted on the inspection report. Your failure to comply with this
order within the period specified as determined by said re-inspection constitutes your failure to comply with the Connecticut State
Fire Safety Code which may subject you to criminal prosecution as prescribed by Connecticut General Statutes §29-306 with
penalties of a fine not less than two hundred dollars ($200.) nor more than one thousand dollars ($1000.00) or imprisonment of up to
six months or both, as prescribed in Connecticut General Statues §29-295. Non-compliance may result in a civil proceeding against
you as authorized in Connecticut General Statues § 29-306

This Office is looking forward to working with you in the interest of fire and life safety for the community and awaits your timely
response to this matter.

Sincerely,

Deputy Fire Marshal Timothy P. Willis

Town of Seymour

Telephone: 203-881-5010 • Fax: 203-881-5015

CONNECTICUT STATE FIRE SAFETY CODE
ABATEMENT ORDER OF FIRE/LIFE SAFETY HAZARDS

Dear Mr. Falzone,

On 8/17/2017, at approximately 0930 hours, an inspection was conducted of the premises located at 51 Skokorat Street, Seymour, Connecticut for the purpose of compliance with Connecticut Fire Safety Code and the applicable referenced applicable standards, adopted pursuant to the Connecticut General Statutes §29-292 and §29-293. The Code and said standards are available for your inspection at this office.

The violation of the code found on the date of inspection are listed on the attached inspection report.

You are hereby ordered to take the proper corrective action to remove or remedy all the listed violations within thirty (30) days from the day that this notice is received, unless otherwise noted on the attached inspection report.

If you believe that compliance with the code will impose an unreasonable hardship, and that alternative methods of achieving an equivalent level of safety could be attained, you may request, in writing, a modification of the requirements of said Code as outlined in the Connecticut General Statutes § 29-296. If you believe compliance will take more than that specified, you may request an extension of time prior to the expiration of the thirty (30) day period, unless otherwise noted on the attached inspection report. Sample forms for application for modification and extension of time for compliance are available from this office. In addition you have the right to appeal this order pursuant to Connecticut General Statutes § 29-306 for a period of not more than thirty (30) days from receipt.

Plans/specifications for work to be done shall be submitted to this office prior to the commencement of any construction. This review of all plans/specifications would avoid unnecessary expense that could result from non-complying changes. Please note that the correction of certain violations may require proper permits and approval from the building official and other local agencies prior to any construction.

This is the only order you will receive. This office will conduct a re-inspection of the premises to determine compliance with this order after the expiration of the thirty-day (30) or the time period noted on the inspection report. Your failure to comply with this order within the period specified as determined by said re-inspection constitutes your failure to comply with the Connecticut State Fire Safety Code which may subject you to criminal prosecution as prescribed by Connecticut General Statutes §29-306 with penalties of a fine not less than two hundred dollars ($200.) nor more than one thousand dollars ($1000.00) or imprisonment of up to six months or both, as prescribed in Connecticut General Statutes §29-295. Non-compliance may result in a civil proceeding against you as authorized in Connecticut General Statutes § 29-306

This Office is looking forward to working with you in the interest of fire and life safety for the community and awaits your timely response to this matter.

Sincerely,

Deputy Fire Marshal Timothy P. Willis

Telephone: 203-881-5010 • Fax: 203-881-5089

Town of Seymour
