

Energy Code Compliance Certificate

R value of ceiling/roof insulation _____

R value of wall insulation _____

R value of foundation insul. _____

R value of slab insulation _____

R value of duct insulation
outside of conditioned space _____

U factor for fenestration _____

Solar Heat Gain Coef of
fenestration _____

Type of building heating system _____

Efficiency of bldg. heating system _____

Type of water heating system _____

Efficiency of water heating system _____

The building has (check as applicable):

An unvented gas fired room heater _____

An electric furnace _____

Baseboard electric heat _____

This certificate was completed by:

_____ (name—printed)

Builder Project Design Professional (choose one)

_____ (Date)
