Mr. Smith called the meeting to order at 6:30 p. m. and introduced Safety Coordinator Brian Drake from the Fusco Corporation who reviewed safety guidelines for the Committee membership. The guidelines pertain to the Committee members as well as anyone visiting the building site during the construction phase. Mr. Drake stressed the following:

- a.) Heavy-level shoes should be worn, preferably boots.
- b.) Shirts should have some type of sleeve – no tank tops.
- c.) Long pants should be worn – no shorts.
- d.) Protective eye wear should be worn.
- e.) A hard hat must be worn when walking on site.
- f.) Wear a protective color vest in order to stand out as a visitor.

Mr. Drake also reminded those present, if they were on the construction site, to be aware of the beeping sounds made by the heavy-duty equipment when in reverse mode as the equipment operator has several blind spots and cannot see all things behind the machine.

A brief question and answer period ensued.

Hearing nothing further:

So moved.
