Occupancy

Rev. Callahan House

2018 Year-to-Date Vacancies

5

One apartment remained vacant and one move in at Callahan House during March 2018. Callahan House has experienced 131 vacancy days since January 1, 2018 and has averaged 8.19 turn around days per vacancy since January 1, 2018. By using the HUD PHAS Management Operation formula to calculate vacancy percentage, vacancy day percentage would be calculated as follows: 80 units X 365 days = 29,200 days available; 131 days/ 29200 days available = .4486% percentage through March 31, 2018.

Beginning with July 1, 2011, HUD is using a new formula being applied to the Operating Subsidy calculation. HUD is allowing for 3% vacancy. Vacancy over the 3% will not be paid in subsidy. For example, Callahan House has: 80 units X 12 = 960 unit months available (UMA). 960 X 3% = 29 UMA or 348 days. For 2017 subsidy calculation, we used 203 days and have 145 days to use for the balance of the Subsidy year. For 2018 we used 284 vacancy days and 64 vacancy days to use for the balance of the Subsidy year.

Norman Ray House

2018 Year-to-Date Vacancies

Two apartments remained vacant at Norman Ray House during March 2018. Norman Ray House has experienced 62 vacancy days since January 1, 2018 and has averaged 31 turn around days per vacancy. By using the HUD PHAS Management Operation formula to calculate vacancy percentage, vacancy day percentage would be calculated as follows: 40 units X 365 days = 14600 days available; 62 days/ 14600 days available = 0.4247% percentage through March 2018.

Beginning with July 1, 2011, HUD is using a new formula being applied to the Operating Subsidy calculation. HUD is allowing for 3% vacancy. Vacancy over the 3% will not be paid in subsidy. For example, Norman Ray House has: 40 units X 12 = 480 unit months available (UMA). 480 X 3% = 14 UMA or 168 days. For the 2016 subsidy calculation year, we had experienced 113 days and had 51 days to use for the balance of the subsidy year calculation (July 1, 2015 to June 30, 2016). For the 2017 subsidy calculation, we used 39 vacancy day and have 129 days left to use. For the 2018 subsidy calculation we used 114 days and have 54 days left to use.

Board of Commissioners Seymour Housing Authority 28 Smith Street Seymour, CT 06401 April 4, 2018

RE: Reverend Albert Callahan House & Norman Ray House CFP CT 26P03550117

Dear Commissioners,

As requested, I have reviewed the noncompetitive proposals the Authority has received for modifications and improvements to the fire alarm system in the Rev. Albert Callahan House and Norman L. Ray House.

The existing Fire Alarm system in both buildings is a Siemens systems and consists of the main fire alarm panel as well as approximately two hundred fifty (250) smoke detectors, notification (i.e. horn/strobes) devices and pull stations. Obviously the fire alarm panel and all of the devices are proprietary and need to be purchased thru the same manufacturer.

The proposed improvements associated with this project include the following: 1. Installation of horn/strobe units in each of the one bedroom apartments in the Callahan House and 2. Update the Fire Alarm panel software and replace approximately 40 smoke detectors (approximately 1/2 of the building) at the Norman L. Ray House.

We have reviewed the proposals from Siemens Industry Inc. dated February 23, 2018 and April 4, 2018 (copies attached) and find them to be complete. Based on our prior work with this vendor on prior Housing Authority work and Town of Seymour projects, the pricing of these proposals appears reasonable for the required work.

Accordingly, we recommend the Board award the above referenced Contract to the only bidder, Siemens Industry Inc. in the amount of \$94,000.00 (ninety four thousand dollars) subject to available funding.

We trust this information allows the Board to make an informed decision on this matter.

Please feel free to contact me if you have any questions regarding this matter.

Verv truly yours

Donald W. Smith, Jr., P.E.
