The osprey are gone in Matheis field so the lights should be cleared of the nests soon.

The budget is doing well. The department has needed very few transfers recently. The new fiscal year has started.

The sidearm was delivered. There have been a few technical difficulties with it, but the vendor has since fixed these. The other sidearm will soon have to be retired due to its age and condition.

The department is going to start looking at another Mason Dump the beginning of August.

Additionally, they are going to look at getting scale for the transfer station, as well as other projects that have been approved.

Item #9: Transfer Station Update

All the brush was recently chipped at the transfer station, so the area is clean. The concrete pad has been put on hold because the money had to be allocated elsewhere. The numbers for garbage coming in have been fluctuating. There is a large amount of tonnage coming in from public drop-offs. There has been a spike in public drop-off tonnage. When the new scale is installed, it will be easier to tell what is coming in.

Item #11: Work Update/Director's Report

*See attached report

The department hasn't had a sidearm in a couple months and it has been very rainy, so they have been catching up with cutting lately.
