5. 8 Spruce Brook Road; Action if necessary

Tabled to next meeting.

Jim Baldwin stated that Mike was there and he informed him that the application will require the necessary documentation to determine if it's significant impact or not. These documents include the standard application, the information from the certified engineer and soil conditions.

The Chair stated that when Mike came in he produced a hand drawn map and the Commission asked him to obtain information by the proper professionals.

Mike Marganski stated that the property owner was informed that he was more than likely going to need all of that and the application would not go further until the Commission had it. The property owner insisted that this was the route he wanted to take, but he is informed of what he needs to do.

The Chair stated that the Commission looked at the photos of the property, and it looked as though there was much more fill needed to do what he wanted to do, than what was proposed.

Marganski stated he informed him that staff needed to be told exactly what he wanted to do.

6. Bladen's Ridge Project
