3. Update on all East Haddam Elementary School Projects
   Mr. Fellner updated the committee on the abatement project:
   Ceiling Tile/Abatement: The removal of all the asbestos is completed. Punch list is being worked on. There is an issue with getting light fixture lenses from manufacturer. There is a back-up plan in place if lenses do not arrive by the weekend.

   Mr. Jacunski updated the committee on the progress of the following projects.
   The Roof: Roof is complete except for some metal work and flashing around front of building. This will continue for a little while after the students are in school. At this time, with anticipated last change orders, only 2.5% of 5% contingency will be used.
The Boiler: Hot water testing was done last week and should be ready for activation by start of school for hot water only. The completion date of the boiler is still on target for end of September, early October, as planned. At this time, only $1200 of the 5% contingency

The Site: On target for completion prior to school start, including the lines and signs. Balleks will begin planting soon. A change order for the type of fencing around the playground area from a chain link to a vinyl covering in the amount of $1320 was approved. At this time, we are still under the contingency of 5%. There will be continued expenses with the site testings.

Mr. Jacunski and Mr. Fellner continue to hold final project meeting on Wednesday at 11am.
