6. Discussion
   a. Plan of Conservation & Development (PCD)
The following documents were reviewed and discussed. They are filed at the Land Use Office.
   - East Haddam Libraries study committee future plans.
   - RFP-Feasibility Study for East Haddam Public Schools.
   - draft RFP Update of Plan of Conservation and Development. Mr. Pettinelli suggested adding a
deadline due date.

state plans of Conservation and Development “consider” the sea level change scenarios from the
NOAA report.
   - FEMA flood maps.
   - updated Sign-up sheet for P&Z member attendance at town board and commission meetings.

Mr. Ventres stated a consultant would be hired for the feasibility study (due November 1, 2017)
for East Haddam Public Schools. The report would be available to be included in the PCD.

Mr. Curtin suggested all town study results be shared with the Planning and Zoning Commission.
Mr. Ventres stated town long range planning should be reviewed with the Planning and Zoning
Commission.

Commission members discussed their attendance at town board and commission meetings. Mr. Brownell noted of the importance of including future planning in the PCD because it would give
legitimacy through the State when applying for grants and loans.

Mr. Gillis stated the Conservation Commission had suggested the survey should reflect the 2006
baseline questions for comparison purposes.
