-Page 1, under Old Business, 2nd paragraph, 3rd line, after well insert “pump”.
-Page 2, under Downes Construction, 1st paragraph, 2nd line after start, add “around”.
-Page 2, last paragraph, after Log, add “. After a lengthy discussion, the committee was able to agree on over $700,000 of value engineering options.

4. OLD BUSINESS
   A. Silver Petrucelli & Associates
Silver Petrucelli has been working with Downes Construction with value engineering items and providing documentation updates.

Mr. Jorgenson reviewed the following document which is filed at the Selectman’s office.
-Silver/Petrucelli letter from Mr. Stein dated April 27, 2017 regarding additional design and engineering support to facilitate the value engineering cost reductions. The committee tabled approval.
-AIA Document G802-2007, amendment number 002 by Silver Petrucelli to proceed with additional services. Mr. Mansfield requested the removal the architect’s fees for additional well test monitoring.
Motion by Mr. Blaschik to approve the AIA document G802-2007 with the removal of architect’s fees for additional well test monitoring. Second by Mr. Smith and unanimously passed.

B. Downes Construction
Mr. Scholl reported on the progress of the project. The phase 2 building permit has been received.

The following documents were reviewed. They are filed at the Selectman’s office.
- Downes Construction Phase 2- New Municipal Facility for the Town of East Haddam, GMP Amendment -1.2 Exhibit B-Assumptions and Clarifications, dated April 20, 2017.
- East Haddam Municipal Otis Elevator Modernization Proposal Scope of Work.
- Email from Thomas Longhi to Tom Romagnoli regarding the elevator.
- Exterior lighting pictures for value engineering options.

Mr. Dill questioned the necessity of the elevator to the project. Mr. Mansfield stated the elevator was the only access to storage in the basement from inside the building. There are 4 outside access doors to the basement. Mr. Romagnoli reviewed the scope of work for the elevators. Mr. Mansfield stated Otis had signed off on the elevator as going back in service based on code from when it serviced a school. Because the building is a change of use, there are new elevator requirements. Mr. Mansfield suggested re-scoping the elevator design and getting new estimates.

Committee members reviewed the Value Management Summary Log. After a lengthy discussion, the committee was able to agree on a GMP of $13,082,494, taking $22,782 out of the owner’s contingency and leaving $620,368 in the owner’s contingency. It was noted the figures did not take into account the soil testing, elevator and well design which could reduce the project cost. Mr. Romagnoli stated these would be considered change orders. Mr. Mansfield noted with the owner’s contingency, the project was within budget. Mr. Romagnoli stated of the importance of GMP approval so it could be submitted to the USDA.

Motion by Mr. Howat to approve a GMP for phase 2 construction for Downes Construction in the amount of $9,844,890. Second by Mr. Smith and unanimously passed.

It was noted that the project phase 1 GMP is $3,237,604 and the phase 2 GMP is $9,844,890 adding to a total GMP of $13,082,494.

Mr. Turner was asked to investigating costs associated with directly purchasing propane tanks within the operating budget. Propane location on site will need further investigation.

C. USDA
There was nothing new.
D.  Bills and Invoices  
Downes Construction’s invoice 25-01-0337 was tabled.

Motion by Mr. Blaschik to approve Fuss and O’Neill’s invoice #0015586 in the amount of $4,140. Second by Mr. Smith and unanimously passed.

Silver Petruccelli invoice #17-723 was tabled.

5. GENERAL DISCUSSION
