Mr. Mansfield spoke with a neighbor complaining about the beeping noises from machines on site and explained there would be a reduction of some of the noise once demolition was complete but the site is a construction zone and there remains a lot of work to be completed over the next several months.

The State of Connecticut Department of Public Health has approved the well design. The approval dated 6/6/17 is filed at the Selectman's office. Approval will add approximately $130,000 to $140,000 back to the GMP contingency.

   A. June 22, 2017  
The next scheduled meeting is Thursday, June 22, at 7 p.m. at the Grange.

7. Audience of Citizens  

Responsive to a question by Mr. Gelston, Mr. Mansfield replied the committee was not an advisory committee. Mr. Gelston referenced an AIA document he obtained from the Town Building Department. Mr. Scholl believed the documentation to be a permit. Mr. Mansfield will research and update at the next meeting.

Responsive to a question by Mr. Gelston, Mr. Mansfield replied Downes Construction was hired as a construction manager with a guaranteed maximum price (GMP). Mr. Mansfield stated the GMP was with Downes Construction and they were responsible for phase 1 and phase 2. All agreements with the subcontractors is the responsibility of Downes Construction. Mr. Gelston stated the money should be passing through the committee to Downes Construction. Mr. Mansfield stated no, that was incorrect, reiterating Downes Construction has been hired as a construction manager and the contract was approved by the USDA. Mr. Gelston stated he believed the contract could lead to a conflict of interest.

Mr. Gelston asked how inspection of work would be performed, suggesting a Clerk of the Works. Mr. Gelston asked if there was a full time inspector. Mr. Garofalo stated he was the part time inspector. Mr. Gelston questioned if he had performed inspections today to which Mr. Garofalo replied yes. Mr. Gelston voiced concern with a part time inspector. Mr. Scholl reviewed the inspection process, noting nothing could be completed without inspection. Mr. Garofalo noted there was not a Clerk of the Works when the Middle School was being built. Mr. Howat added the Middle School project was also performed with a construction manager with a guaranteed maximum price. Mr. Mansfield stated Silver Petrucci also performed weekly inspections and provide field reports. Mr. Howat added there was a special inspector which performed testing per the engineers records for critical testing of concrete, soil compaction, masonry, rebar placement, etc. Mr. Mansfield stated the committee would also be hiring a commissioning agent for all mechanicals. Mr. Dill noted the committee had discussed the idea of a Clerk of the Works and had decided it would duplicate the hiring of a construction manager with a guaranteed maximum price.

Responsive to a question by Mr. Gelston, Mr. Garofalo replied currently he was performing onsite inspections about twice a week and anticipated daily visits as construction progressed.

Responsive to a question by Mr. Gelston, Mr. Mansfield reviewed expenses for the project to date. This information is filed at the Finance Director’s Office.

Responsive to a question by Mr. Gelston, Mr. Mansfield replied the funding source for the project was not a committee decision and advised consultation with the Finance Director and Board of Finance.
Mr. Gelston asked if there had been any change orders to date. Mr. Mansfield replied no.
