      3. Goodspeed Landing Committee – Mr. Casner welcomed the attendees and stated the purpose of the meeting. He recognized Mr. Gerrish, the Chairman of the Village Revitalization Committee (VRC).

         Mr. Gerrish provided some background on the Village Revitalization Committee. He noted that it had been established several years ago and, in light of the planned move for the municipal offices to Moodus, was recently reconvened.

         Ms. Kolek reviewed the activities of the VRC since its inception in 2008 and stated she would provide the EDC Commissioners with minutes and other documentation regarding the research that had been done.

         Mr. Casner advised that in 2014-15 the EDC had gotten involved in the project at the request of First Selectman. He reviewed the actions taken by EDC and several outstanding issues.

         The meeting participants discussed the possible contamination under the Town garage floor and it was noted that the property had previously been used as a CT DOT facility. They also discussed the scope of the revitalization project and agreed that it could benefit from a master plan and/or town planner.

         Mr. Gerrish stated that it would be helpful to try to line up a tenant for the Town Office building rather than leaving it vacant when the offices move to the new municipal building.

         The participants agreed on the following next steps:

         • Test the ground under the town garage for contaminants.
• Re-open discussions with the Goodspeed management.
• Strategically decide which properties the Town would like to secure a “right of first refusal to purchase” for the project.
