   Mr. Lyman reviewed the letters and noted that Director Turner had forwarded a letter from the East Haddam Resident Trooper, complimenting “…the custodial staff’s outstanding work” to Christopher Sennik and Sean Shea, the custodians at the Municipal Office Building. He further noted that he had received a note of thanks to the Town employees from the East Haddam Garden Club, “…for their help in keeping the Gelston triangle beautiful”.

5. First Selectmen’s Report

   Mr. Lyman reported the following:

   • The state legislature has reinstated the Town Aid for Roads and, as a result, the Town expects to receive approximately $161,000.00 from the state for road work this year.

   • The Town has hired John Sarnik (JD) as a full-time fire fighter/EMT.
The Bone Mill Road bridge project had been on hold while the state adjusted its budget and is now back on track. The order to fabricate the bridge has been released and Mr. Lyman expects the bridge will be set in place this summer.

A. East Haddam Village Revitalization Committee Update: Mr. Lyman reported that the East Haddam Village Revitalization Committee did not meet last month so there is no update on this agenda item. He called the Selectmen’s attention to a copy of an email in their meeting packets regarding Mr. Smith’s email exchange with CT DOT Commissioner Redeker regarding the status of the Swing Bridge.

Ms. Link requested the item be moved under Unfinished Business on the Board of Selectmen’s agendas so that the Selectmen can receive regular updates on the work of this committee.

B. Responses to Previous Meeting Questions: Mr. Lyman provided the following information on questions/comments raised at the last Board of Selectmen’s meeting:

- The police reported that they had visited the site, adjacent to Mr. Dill’s property, where tree stumps had been dumped and the area has been cleaned up. The police advised that they had given a verbal warning to the individual responsible but, since no tangible evidence remained, they did not issue a citation.

- Mr. Lyman spoke with Recreation Director Conroy regarding the Parks and Recreation Commission’s plans for new playing fields. He reported that Director Conroy feels that additional playing fields are warranted; however, the only new field currently under consideration is the green space in the back of the Municipal Office Complex property. She further advised that the only work being done on this project is to make it viable for potential grant applications. There was a general discussion regarding the use of Nichols Field for Colchester’s sports.

- Mr. Lyman spoke with the Selectmen of Old Lyme, Killingworth, and Durham regarding the state’s horizontal sign program. He reported that although none of the towns are happy with the new signs, they did not want to participate in a consortium to discuss their concerns with the state.

- Mr. Lyman advised that he had not yet spoken with Public Works Director Lunt regarding new Speed signs being posted on Beebe Road.

6. Citizen’s Concerns: The following citizens’ concerns were brought up at the meeting:

- In response to a concern Mr. Gelston raised about the state’s horizontal curve signs, Mr. Lyman agreed to request the state’s circuit rider review and provide input on the need for and safety of the newly installed signs.

- Mr. Gelston noted that tree cutters tend to be less busy in the winter months and, as a result, reduce their prices. He suggested that, unless a tree represents a danger to the public, the Town negotiate with a contractor to remove dead trees between November and March.

- Mr. Morsch distributed copies of the recommendation page of the Transfer Station Committee’s final report. He stated that during a recent visit to the Transfer Station, a resident complained to him about the Town closing off the back of the hopper to the public. He expressed frustration
with the delay in implementing the Committee’s recommendations and noted that, since it is the responsibility of the Board of Selectmen to set policy, it is not necessary to get the public’s consensus on moving forward with the Committee’s recommendations.

- Mr. Brownell reiterated his concern that Town staff is spending time on preparing the playing fields on the Municipal Office Complex site for potential grants. Mr. Dill agreed that any work done on the fields is premature since the Municipal Office Building Committee has not yet finished its work on the drainage for the site. Mr. Lyman stated he would discuss the matter with Mr. Ventres.

- In response to a concern raised by Mr. Brownell about speeding on Petticoat Lane and Hungerford Road, there was a general discussion regarding whose responsibility it is to address the issue. The Selectmen agreed that Mr. Lyman should ask the state’s circuit rider for recommendations for controlling speeding on Town roads.
