5. First Selectmen’s Report

   Mr. Lyman reported the following:

   • Eagle Environmental is conducting a Phase III inspection of the old Town Office Site and the results are expected to be received in a few weeks.

   • CT Landmarks held a public meeting at the Grange on June 11th and Mr. Lyman stated that he felt the meeting was very poorly announced. He reported that CT Landmarks plans to begin renovations to the barn on the Palmer Warner property in mid-July and the projected cost is approximately $500,000.00.

   • The Church of Christ held a poverty walk at Johnsonville in May and approximately 2,000 people participated. Mr. Lyman noted that several Town roads had to be closed for the event. He noted that a similar event is scheduled for late-summer/early-fall with an even greater rate of participation expected.

   • There is some question about who has jurisdiction over turning the East Haddam Free Public Library building over to the Town. The Town’s lawyers and the State Attorney General’s office have opined that the Probate Court has jurisdiction so it is currently back in their hands.

   • The Bone Mill Road Bridge project is underway and it is anticipated that the bridge should be in place within approximately a month.
A. Responses to Previous Meeting Questions: Mr. Lyman noted that, just prior to the meeting, Public Works Director Lunt advised him that she would be unable to attend the meeting to address questions that were raised related to the removal of dead/diseased trees. He provided the following information on questions/comments raised at the last Board of Selectmen’s meeting:

- All CT towns are facing the same excessive financial burden to trim back and/or remove the dead/diseased ash and oak trees. Mr. Lyman stated that he has received an estimate of approximately $1M to remove all the Town’s dead/diseased trees. He noted that the recommendation is to prioritize areas according to the level of damage, with a goal of working through 13 miles of road per year. He stated that Ms. Lunt suggested that it might be more cost-effective to hire additional staff and purchase equipment so the Town could do its own tree removal work; however, no decisions have been made to date on how to best address the problem.

Mr. Smith suggested changing the scope of some of the Public Works road projects currently planned and using the funds for tree removal.

- The Town has reached out to the State’s Circuit Rider for input on the newly installed horizontal signs; however, Mr. Lyman does not know when the Circuit Rider will be available to meet with the Town representatives.

- He discussed concerns about increased speeding on Hungerford Road and Petticoat Lane after road improvements are made with Director Lunt who feels that the best solution would be for increased police patrols of those roads.

- The speed signs on Beebe Road belong to the Town; however, he noted that the state also installed some 20 MPH signs in some areas with exceptionally sharp curves.

6. Citizen’s Concerns: The following citizens’ concerns were brought up at the meeting:

- Mr. Morsch expressed his concern that little to no action has been taken on the Transfer Station Committee’s recommendations. Mr. Lyman advised that the Town is discussing the trash bag system with its attorneys and updated Mr. Morsch on research he has done regarding several of the other of the Committee’s recommendations.

- Ms. Morsch raised the issue of establishing an empty weight for many trucks to avoid re-weighing trucks on their way out and there was a general discussion regarding the pros and cons of her suggestion.

- Mr. Gelston repeated the suggestion that he made at a prior meeting for the Selectmen to establish a committee to implement the recommendations of the Transfer Station Committee. There was a general discussion regarding the current and an improved sticker system for the Transfer Station.
