5. First Selectmen’s Report

   A. Storm Damage Report: Mr. Lyman reported that Public Works Director Lunt’s summary report of her estimate of the cost to repair damage caused by the September 25-26 storm totals approximately $3.77M. He stated that most of the damage was done to Town roads and that East Haddam was one of the hardest hit towns in the state. He advised that the Town is working with the state to qualify for FEMA funds and he reviewed FEMA’s guidelines.

   In response to a question from Ms. Link, Mr. Lyman advised that the Board of Finance approved Director Lunt’s request to re-allocate funds from other projects in the Public Works’ 2018-19 budget to address the immediate repair needs. He agreed to provide information on which projects will be deferred due to the re-allocation of funds.

   In response to a question from Mr. Smith, Mr. Lyman stated that the paving of Petticoat Lane will be delayed until next spring since the Public Works staff is focused on storm damage repairs. Mr. Smith expressed concern about the potential impact of snow plows on the road. Mr. Lyman confirmed that Rep. Ziobron is aware of the damage the Town incurred during the storm.

   B. Responses to Previous Meeting Questions: Mr. Lyman provided the following information concerning questions raised at the October 3rd Selectmen’s meeting:

      • Regarding Ms. Dickinson’s concern that pillars had been installed on a Town employee’s property to replace a stone wall that was owned by the Town, Mr. Lyman advised that survey maps and pins in the wall demonstrate that the property line ran down the center of the wall indicating the wall was jointly owned by the Town and the property owner. He stated that
that is consistent with other stone walls in Town that run along property lines. He advised that he had not received any additional information from Ms. Dickinson.

- Regarding Ms. Dickinson’s recommendation that all Town employees that operate vehicles and/or equipment should be drug tested, Mr. Lyman stated that the Town’s employee handbook, that was adopted in 2005, includes a section stating the Town’s policy on alcohol and drug testing.

6. Citizen’s Concerns: There were no citizen’s concerns discussed at the meeting.

8. New Business

A. Bid Waiver – Robbie Road Repair: Mr. Lyman noted that he had previously spoken with each of the Selectmen regarding the damage to Robbie Road from the September 25-26 storm and the emergency repairs that would be necessary to make the road safe and passable for residents and emergency vehicles.

B. Financial Needs Roundtable Discussion: Mr. Lyman reported that he had spoken with the Board of Finance Chairman who noted that 2011-2012 was the last time an analysis of the Town’s financial needs/limits was done and recommended updating the 10-year plan.

Motion made by Mr. Lyman, seconded by Ms. Link, to recommend the adoption of the following resolution:
RESOLVED: That a Financial Needs Roundtable of seven (7) members, be reappointed, for the purpose of researching and analyzing the Town’s short and long-term financial needs and infrastructure and to make recommendations on planning for projected expenses, revenues and structuring of debt and savings.

The Roundtable shall be composed of the First Selectmen; the Chairman of the Board of Finance (or his designee) and one other member of the Board of Finance from the opposing party; the Chairman of the Board of Education (or his designee) and two other members of the Board of Education from opposing parties; and the Chairman of the Planning and Zoning Commission (or his designee). There was a general discussion regarding the motion and resolution and Ms. Link recommended making the Financial Needs Roundtable a permanent committee. 9. Public Comment: The following public comment was discussed at the meeting:

• In response to a recommendation by Mr. R. Dill, Mr. Lyman advised that there was insufficient manpower in Public Works, at this time, to make changes to the traffic flow pattern at the Transfer Station. He noted, however, that he supported the recommended changes and expects to implement them in the near future.

• Mr. Casner, Chairman of the Economic Development Commission (EDC), reported that the Fall Weekend, a joint effort by the EDC and East Haddam Business Association, was a success. He reviewed some of the attendance statistics and noted that 32 Town businesses participated this year, up from six in 2016 and twelve in 2017. He advised that the Public Works staff, particularly Steve Hedler, and the Fire Department had been very helpful and thanked the Town for its support.

• Mr. Gelston advised that he agreed that the EDC/EHBA Fall Weekend was successful. He also encouraged the Selectmen to move forward on the changes to the Transfer Station and reiterated his recommendation to form a volunteer committee to implement and oversee the work.

• In response to a question raised by Mr. Brownell, Mr. Lyman advised that the state has not informed town officials regarding its plans for removing damaged/dead trees on state roads; however, he has seen their crews working in several areas. In response to a question from Mr. Smith regarding the status of the replacement of the Bone Mill Road bridge, Mr. Lyman advised that the work crew recently discovered that the existing foundation would have to be re-enforced to accommodate the new bridge. He confirmed that the additional work would not put the project over budget and stated that he was told it would be completed this fall. Mr. Smith expressed frustration that the foundation issue was not identified by the engineers at the beginning of the project and stated that he is concerned about emergency vehicles’ access for the residents.

Mr. Smith stated he still had concerns about how the agreement was made to replace the stonewall with pillars on a Town employee’s property during the paving of O’Connell Road Extension.

Motion made by Mr. Smith, seconded by Ms. Link, to survey the property line where the stonewall was removed during the O’Connell Road Extension paving project.
