      3. Youth & Family Services (9:45am): Ms. Varricchio advised that there were no Capital requests for this budget. In response to a question from Ms. Link, Ms. McCabe advised that the department had previously benefited from participating in Haddam-Killingworth’s supervision services at no cost; however, the individual providing that service has moved to another state and Youth & Family Services will now have to contract with another supervisor and pay for the service. Ms. McCabe responded to several questions from the Selectmen and reviewed the department’s drug and alcohol counseling functions. Ms. McCabe and the Selectmen discussed the Office Management expense, staffing and fundraising.

         In response to an inquiry from Ms. Link, Ms. McCabe stated she would research the remaining term on the building mortgage. She also agreed to research the Restricted Donations amount and stated she would provide an Income Statement net of their federal grant for the Local Prevention Council.

      4. Regional Animal Control (10:15am): Mr. Olzacki reviewed the changes to his budget, noted that there was no change to the bottom line and that his goal is to keep his budget flat. He reviewed the regional services provided to East Hampton and Ms. Varricchio confirmed that the department and partnership with East Hampton is going very well.
5. General Highways (10:30am – 11:00am): Director Lunt discussed her capital requests. Director Lunt reviewed her proposal to purchase a roll-off truck and noted that she anticipated there would be a 1.5 year payback for the purchase and, going forward, the Town could expect to realize a significant decrease in its waste hauling expense. She stated that there would be no staffing increases required and discussed the annual fuel cost for the truck.

Ms. Lunt and the Selectmen discussed the proposed calcium chloride treatments for the Town’s dirt roads and the expense for maintaining its street lights. In response to a question from Ms. Link, Director Lunt agreed that her Surveying and Engineering expense lines could be reduced in lieu of drawing from the contingency fund if necessary. There was a general discussion regarding the Tree Maintenance expense and Ms. Lunt advised that she would not recommend reducing that budget item.

In response to a question raised by the Selectmen, Mr. Parker advised that he had just recently been asked to step in for the Recreation Director and not had time to fully digest the department’s proposed budget. He noted, however, that he did not agree with the proposal to do away with beach lifeguards nor with instituting a parking fee. He agreed to get back to the Selectmen with his recommendations after he has had a few days to completely review the budget.

Mr. Gilroy responded to several questions regarding a number of lines in his Operating budget, including Grounds Maintenance, Repairs & Maintenance, Travel, Books & Periodicals and Supplies. In response to the significant increase in the Libraries budget in recent years, he reiterated that the Town had assumed a much larger responsibility for maintaining the libraries several years ago when it was determined that the endowment funds could no longer support them.

There was a general discussion regarding staffing and Mr. Gilroy stated that he feels it is a mistake not to replace the Assistant Director because there would be no back-up for him when he is out for any extended period of time. There was a general discussion regarding statistics for the Town’s libraries as compared to other towns of similar size. Mr. Gilroy noted that the Board has concerns regarding handicapped accessibility and the need for a new facility down the road.

Mr. Reas reviewed the Board’s additional Capital requests with the Selectmen and responded to several questions. He noted that the state will reimburse the Town for up to 50% of the cost of a new roof for the high school; however, there was no reimbursement available to repave the school’s parking area.
