   - Mr. T. Gelston expressed concern that the microphones at the Selectmen’s table do not seem to be amplifying their voices. In response to his question about putting a video of the meeting(s) out on YouTube, Mr. Lyman confirmed that the meeting was being recorded and the IT staff was coordinating with all involved to post them.

In response to a question raised by Mr. Smith, Mr. Lyman advised that he would like to remove the reflectors on the sign poles in some areas. He noted that this concept was discussed in detail at the last Board of Finance meeting and funding has been earmarked to implement it. There was a general discussion regarding the background on this issue.

Mr. Smith reported that he had attended the BOF meeting and stated that the purpose of creating a plan is for the Town to improve how it handles communications with the citizens during a crisis. He stated that additional input on the plan from the Board Education would be required; however, any final plan would include situations beyond the scope of the Board of Ed.

Ms. Link emphasized that, going forward, she wants to be sure that the proper procedure regarding this issue is followed and also believes our ordinance requires the Town solicit proposals from additional companies. Mr. Gelston provided some more information regarding the BOF’s involvement in this plan and confirmed that no spending had been authorized by the
BOF and that they had only earmarked dollars for the project should the Selectmen chose to move forward with it.

Mr. Smith stated he feels the revisions to the trailer ordinance needs further clarification regarding the types of trailers covered by the ordinance. He also encouraged the Town revisit the suggestion of using “speed humps” to control speeds on some roads.

Mr. Smith stated that he feels the Town should do research regarding potential liability resulting from the lack of consistency, across municipalities, of the state’s horizontal curve road signs. He supported Mr. Gelston’s recommendation that a consortium of towns approach the state on this subject.

Mr. Smith stated that he believes the Town needs to review how Public Works will address/fund the removal of numerous compromised trees owned by the Town.
