      Motion so passed.

   a. J. Spencer noted lack of follow through from EHAA paying the Zep bill.  We received notice of intent to send to collections.  Fire Department paid bill in full.

6. Visitors Participation: Visitors discussed concerns with increase in EMS calls they are taking.  They took over 1/3 of the calls during the day totaling approximately 170 runs last year.  What will their position be if there is significant change to ambulance and staffing possibly by a paid crew specific for EMS.  They knew of recent meeting of First Selectman, L. D’Aquila and several ambulance officers.  It was relayed that some negative words were said about the paid staff and this is very disrespectful and not appropriate.

    J. Sarnik has discussed options with both First Selectman Lyman and Chief Auld.  Is open to discussing how a budget could be developed utilizing current ambulance budget and known factors on billing.
First Selectman Lyman relayed there is no budget at this time for ambulance coverage – stating the ambulance is currently working to correct the increase of mutual aids. Time to get corrected is unknown but he felt it should be at least 60 days but not over 6 months. First Selectman Lyman reviewed the long process to change the PSA with OEMS and hospital. All options need to be looked at and remember most will take time to accomplish. Current contract with EHAA is staying open at this time per First Selectman Lyman.
