5
• In response to a question raised by Ms. A. Blaschik, Mr. Smith advised that if the $150,000.00 allocated for tree removal in the current budget is expended, the Town will ask the Board of Finance if additional dollars are available from the contingency fund. He stated that a consultant accompanied by the Road Superintendent examined five roads in Town and informed him that there are approximately 800 trees on those roads that will have to be removed. Mr. Smith noted that, even though Eversource may be responsible for removing 30% to 40% of those trees, the Town’s budget will be significantly impacted by the cost of the removal of the remaining dead/dying trees. He stated that the Board of Finance has requested a realistic estimate of the cost, over-time, of removing all of the affected trees.

• In response to a question raised by Mr. J. Zaid concerning any actions taken on the recommendations of the Transfer Station Committee, Mr. Smith reported that there have been no significant changes made to date, however, in the near future he plans to implement a new traffic flow plan, as proposed by Mr. R.
