a. **FY 2020-2021 First Quarter YTD Budget Report:**

Mrs. Varricchio presented a revised format of a First Quarter summary and analysis and the 2019-2020 expenditures summary, which is also in a revised format. She noted that the intent of the revised document is to show when expenditures are made, which for many lines happens all at once. Board feedback was positive. It was noted that the yellow numbers are corrected numbers from what was emailed, as a formula was incorrect. Mrs. Varricchio noted that the staff transitions at Public Works may have a financial impact that was not budgeted. In particular, she noted that the mechanic is leaving. This may necessitate sending repairs out for service rather than handling in house. She also highlighted that $61,000 was budgeted for teachers retirement and that will not need to be expended. Mrs. Gionta suggested several footnotes to clarify items. Mrs. Gionta encouraged better delineation of transfers regarding multi-year funds. Additional feedback was solicited as it is a new reporting method and should be easier to utilize, the report will be generated monthly.

Mrs. Varricchio advised that the first debt service payment for the Municipal Office Complex has been made. She also noted that there were issues with the Foxtown Bridge project, that may result in penalties and fees being collected.

Mr. Gelston stated that he heard that electricity for this building was abnormally high. Mrs. Varricchio reported that actual billing was higher than assumptions. She noted that the Building Committee is working through the process that have several systems competing with each other. Mr. DiCristofaro summarized that the issue has been identified and that it is being worked on, all in effort to reduce costs.

Mr. Gelston noted that he had questions of either Mrs. Varricchio or Mrs. Dill, but added that he will ask them directly and not take up the Committee’s time.

Mrs. Varricchio noted that a meeting occurred with FEMA a couple of weeks ago. FEMA is categorizing work into three areas: Emergency Work, Neptune Avenue and Everything Else. She noted that there may be a cash flow issue as they are not funding until all work is complete. In anticipation of cash flow issues, she is working with the Treasurer and if necessary, are looking to borrow to carry through as the amount of work totals $3,000,000. Additional modifications to the reports were suggested. It was noted that the Board did not wish to see the font size decrease, so some additions may not be feasible.

**LIAISON REPORTS**
