

**Sunrise State Park  
Community Meeting  
Wednesday, September 25, 2013  
7:00 p.m.  
Nathan Hale-Ray High School Auditorium**

Staff from the Department of Energy and Environmental Protection (DEEP) will host a community meeting on Wednesday, September 25, at 7:00 p.m. in the Nathan Hale-Ray High School Auditorium, located at 15 School Drive, Moodus, to update the residents on the Department's efforts to improve Sunrise State Park. With the demolition of many buildings complete, the DEEP, along with Rep. Melissa Ziobron, Sen. Art Linares and First Selectman Mark Walter, are seeking feedback from the community to determine what the future of the property should be. Alternatives to consider include keeping the property in its natural state for nature trails and casual recreation, or again trying to find a private party to redevelop the property for some other recreation-based uses.
