6. Director of Health Report  
Audit Report Recommendation Response

Mr. King noted that he met with Mr. Jylkka and Ms. Shulman regarding comments in the audit report to develop processes to address concerns. These processes were reviewed by the auditors and had been implemented at the beginning of the fiscal year, after approval by the Board. Mr. Schuster commented that another way to reduce risk would be for deposits to be made directly by each town, eliminating the delivery from the sanitarian to the East Hampton Finance Department.

Mr. King stated that one of the audit recommendations for unique permit numbering is currently difficult to do with the applications being accepted in each town. The Garrison system could address this concern when it is fully up and running.

#### 8. CTG Grant and Budget Discussion

Mr. King presented the Board with a budget for the Community Transformation Grant (CTG). The CTG is a county level project, in which Chatham has been designated as the lead department for Middlesex County. The CTG new CDC initiative to address chronic diseases related specifically to obesity and physical activity within the county. Funding will support Chatham Health District, Connecticut River Health District, Middletown Health Department and Essex Health Department. The other health departments will be subcontractors to Chatham. The first and second year funding will be \$83,900. The towns within the District that are outside of Middlesex County will be funded in some way by their counties (Tolland and New London). Marlborough is the only town not covered through one of the awarded counties. However, Mr. King will incorporate Marlborough in the studies.

#### 9. Health Equity Index Evaluation Study

Mr. King stated that CADH has developed a tool that looks at health outcomes and socioeconomic factors. Mr. King stated that he has built in funding for the use of this tool within the CTG. Mr. King stated that it will be very useful when conducting a community health assessment. Mr. King also believes that it can be very valuable for the Board in strategic planning.

#### 10. Old Business

Mr. Schuster inquired as to the status of the Eastern Highlands contract for sanitation services. Mr. King stated that he did send a copy of the contract to the insurance carrier and they acknowledged that our employee would be covered. Mr. Schuster continued to express concern with the contract. Discussion was held regarding other departments providing coverage across towns, past contractual agreements and keeping good working relations with other health districts/departments. Mr. Hughes suggested continuing the discussion at a future meeting when there was full Board membership.

#### 11. New Business

Mr. Tierney discussed the regulation requirements for businesses on sewer to install grease traps. Mr. Tierney's concern is that the WPCA's have the authority to implement an ordinance regarding grease traps and is under the assumption that the ordinance being drafted will not allow waivers. Mr. Tierney stated that if written in this manner it could be very detrimental to some of the businesses within the towns. Brief discussion was held with consensus that once the ordinance is drafted the Board will provide commentary for WPCA's public hearing.

#### 12. Adjournment

Following no further business, motion was made by Mr. Tierney seconded by Ms. Soby, to adjourn the meeting. Vote was unanimous in favor. Meeting adjourned at 11:10am.
