- The project proposes a mixed-use development with 240 apartments and 19,500 square-feet of retail.
- PLUS has reviewed and approved the proposal.
• Four walk-up, garden-style apartment buildings are proposed. The two buildings next to the shopping center are mixed-use buildings, with three stories of residential units above ground-level retail.
• The three-story buildings will have elevators; the other buildings are conventional walk-up type apartment buildings.
• A pool and clubhouse will be constructed for the residents.
• 561 parking spaces are proposed; 93 spaces are shared with the retail; 62 spaces are in leasable garages.
• The apartment mix is mostly 1 and 2-bedroom units with a few 3-bedroom units.

Mr. Shapiro said they will provide trip generation comparisons for apartments and shopping centers when the Land Development Plan is presented.

It was noted that a master transportation study from Rt. 1 to Catherine Street has been ongoing. Rt. 1 to Brick Mill Road improvements were done when the hospital was built; all new development in the area will contribute to the improvements. Roger Brickley: The owner is seeking to rezone the property from R-2 to R-3 so the existing 4-unit apartment house complies with required zoning. If rezoning is approved, a plan proposing to add two new apartments will be presented at a later date. The existing building has a sprinkler system. Rezoning the property would bring it into compliance for the multi-family use.

Dr. Zelda Carter from Family Help, Inc., said they will be requesting approval for two more apartments because of the demand for families needing housing.

Irv Brockson thanked Mayor and Council for their support of the program.

Mayor Branner clarified that this hearing is just the rezoning approval; a Land Development Plan for the additional two apartments will be required.

Mr. Faulkner asked if the parking was adequate. Mr. Brickley said the plan is short on parking for the proposed units.
Moved by Mr. McGhee and seconded by Mr. Stout to adopt the Ordinance to rezone 26 W. Lake Street from R-2 to R-3. Motion Carried Unanimously.

     The painting is almost finished inside the clubhouse; the flooring has to be completed on the second floor.
     The retaining wall, sidewalks in the front and parking lot has to be completed; the road in front of the clubhouse to the back of the clubhouse has to be completed. Weather permitting, Eastern States will install the base coat from Green Giant back to the existing base. When patching is finished, the topcoat will be applied. The walking paths, as well as the amenities at the rec area should be finished as soon as it dries out.
     Path around the pond: The engineers are reviewing the as-builts and checking the grades for compliance. Pond repairs are scheduled pending drier weather. The restaurant group will take over the clubhouse at fit-out stage; Capano will be finished and permits will again be issued.
     Trees will be planted per the plan.
