

TOWN OF OCEAN VIEW

201 CENTRAL AVENUE
OCEAN VIEW, DE 19970

SPRAYING SCHEDULE FOR MOSQUITO CONTROL

The Town of Ocean View will initiate mosquito control efforts via truck mounted sprayers beginning the 1st week of June 2018 and spraying will occur once per week. The spraying will be done between the hours of 10:00PM and 4:00AM on either Tuesday, Wednesday, or Thursday weather permitting. All communities within Town limits are included in the weekly spraying.

In addition, the Town is now included in DNREC's Aerial Spraying Program. DNREC has indicated that we are dealing with a widespread mosquito problem in Delaware and this is by far the worst outbreak of mosquitoes we have seen in 20+ years.

To view the schedule for aerial spraying or receive step by step instructions on how to sign up for spray notifications go directly to the links below:
